Available in Red or Black. Add "R" or "B" at end of part # denotes color.
Custom colors and sizes available.

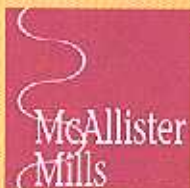

- *Thermal Protection*—
Applications approaching 500°F
- *Industrial Design*—
Abrasion & Puncture Resistant
- *Splash Resistant*—
Non-Permeable Coating
- *Superior Flexibility*—
Stretches over joints/fasteners
- *Precise Coating Thickness*—
Takes tight radius with ease

FLAMEGARD[®]

SILICONE COATED SLEEVING

- *High Cover Braided Core*—less snag & improved thermal protection
- *Chemical Resistant*—to many petroleum based products
- *Optimum Coating Weight*—lighter for installers
- *Premium Silicone*—no additives & fillers that bulk, stiffen or degrade thermal performance
